

Initial Meeting agenda:

1. Discuss an appropriate time to meet each week and the client's availability
2. Discuss the data we will be using
 - a. How we will obtain the data (the client provides the data or is available online, etc.)
 - b. Sensitivity of the data
3. Discuss the use of APIs and potential subscription fees
4. The application's platform should be based on (Apple, Android, etc.)
5. The scale the client envisions for the application
 - a. How many routes are generated per day
 - b. Size of the area we are covering
6. Any documents that you would like to give us, for example, company programming practices
